## WAY TO KNOW

*words & Music: Robert Allen*

---

Well I don't understand it  
How we got in this mess at all  
But I believe we have to find  
A way to know

You know we're all looking for the reason  
When there doesn't seem to be one at all  
But I believe we have to find  
A way to know

So if the world keeps growing colder  
Will there be any love left to know  
Because each day we all get older  
And soon we'll reap what we have sown

I don't understand it  
Why we fuss and we fight at all  
But I believe we have to find  
A way to know

Or are we past the thought of caring  
Of how we all should heed the call  
Instead of one more day of planning  
A way to make the other one fall

You know we're all looking for the reason  
When there doesn't seem to be one at all  
But I believe we have to find  
A way to know

So if the world keeps growing colder  
Will there be any love left to know  
Because each day we all get older  
And soon we'll reap what we have sown

I don't understand it  
How we got in this mess at all  
But I believe we have to find

A way to know  
Cause I believe we're gonna reap what we have sown  
Yes I believe we have to find  
A way to know

## AND YOU KNOW WHY

*words & music: Robert Allen*

---

It's a sad old day  
And it's hard this way  
When I'm all alone and think of you

If I told myself  
There was someone else  
I might accept that we were through

When will I know better than to love somebody  
When will I know better than to try  
But since the dreams don't stay too long  
And broken hearts are never strong  
Maybe there's a reason I still cry  
And you know why

Now it's plain to see  
That it's up to me  
To forget about what I can't do

There's a time to know  
When you need to go  
To set your sights on someone new

When will I know better than to love somebody  
When will I know better than to try  
But since the dreams don't stay too long  
And broken hearts are never strong  
Maybe there's a reason I still cry  
And you know why

I tell myself I'm so free  
But she was so much of me

The love I felt for someone  
Now leaves me cold til I'm numb  
I want to rid this sadness from my mind

When will I know better than to love somebody  
When will I know better than to try  
But since the dreams don't stay too long  
And broken hearts are never strong  
Maybe there's a reason I still cry  
And you know why

### TURN AROUND AND GO

*words & music: Robert Allen*

---

One hundred heartaches in the wink of an eye  
Lost in a moment that goes flashing on by  
When you can't touch her somewhere  
You can feel your own mind begin to cry

Take a number then just sit back and see  
What will happen and what will never be  
Cause you don't stand a chance when you know  
That you're in love and she's just there to tease

And I don't want to believe  
And I don't want her to know  
But my heart won't let me  
Turn around and go

One hundred wishes and one hundred dreams  
But don't be taken cause it's not what it seems  
And you can't feel real about something  
When you don't know what it really means

And I don't want to believe  
And I don't want her to know  
But my heart won't let me  
Turn around and go

Sometimes love is such a foolish game

Sometimes you get caught and lose again  
You can't let it be

One hundred heartaches in the wink of an eye  
Lost in a moment that goes flashing on by  
When you can't touch her somewhere  
You can feel your own mind begin to cry

And I don't want to believe  
And I don't want her to know  
But my heart won't let me  
Turn around and go

### SOUL'D OUT

*words & music: Robert Allen & Martin Samuel*

---

Guess I'm soul searching  
She's on my mind  
With a heart that is hurting  
Must have been blind

I wander these streets  
Where we walked together  
But places we meet  
Are stranger than ever now

And I think of those days gone by  
Soul'd out  
And I can't help but wonder why

How could something so right have to turn out so wrong?  
Why should something so good only last for so long?  
Like a love left behind so was this heart of mine  
Soul'd out

Tossing and turning  
Time on my hands  
With a heart that is burning  
Don't understand

I sleep in this bed  
Where we lay as lovers  
But things we once said  
She whispers to others now  
And I dream of those night they're past  
Soul'd out  
And I can't help but have to ask

How could something so right have to turn out so wrong?  
Why should something so good only last for so long?  
Like a love left behind so was this heart of mine  
Soul'd out

### BRIAN JONES

*words & music: Robert Allen*

---

Once there was a man I didn't know  
I saw him in a band  
He flew high too fast he didn't know  
where he would even land

He let someone be his eyes  
and soon he lost all his sight  
Paranoid days and nights  
he lost his life

Brian Jones he tried to be a man  
but didn't understand  
why he would be the one  
to lose all that he had  
when everything turned bad  
He did not understand

He ruled both time and space he had it all  
but they cast him an evil eye  
And so the stage was set fate let him fall  
when he threw that final die

He lost his soul late one night  
when he needed a helping hand

With only fears left for life  
he left for life

Brian Jones he used to be a man  
but didn't understand  
why he would be the one  
to lose all that he had  
when everything turned bad  
He did not understand

### DEAD END SPACE

*words & music:*

*Jessie Hobbs, Robert Allen, Ozzie Caccavelli*

---

Your peace of mind's a state of mind  
That's out of my hands tonight  
And now the only way to deal with this  
Is cutting you down to size

Cause I can't be the one to save you  
If I can't save you from yourself  
But I can set you free

When you fall into that dead end space  
And feel the way I do  
You won't recognize your problems  
Cause the problem here is you  
And you won't feel it in your heart  
But you might feel it in your bones  
And that's the proof you'll need  
All the proof you'll need

I think you'd like to find a way  
To make your wrongs to me seem right  
Or just shove it all aside  
And pray the scars you left me subside

So let me be the one to blame you  
Yeah you can blame it on yourself  
And it will set you free

When you fall into that dead end space  
And feel the way I do  
You won't recognize your problems  
Cause the problem here is you  
And you won't feel it in your heart  
But you might feel it in your bones  
And that's the proof you'll need all the proof you'll need  
The truth will set you free with all the proof you need

### HARD ENOUGH

*words & music: Robert Allen*

---

Well she's a sweetheart of a girl  
She puts your head in a whirl  
Just like a beauty in a magazine

And when you're lying in bed  
Already feeling half dead  
She spins you round like on a record machine

But it gets hard enough to love her  
It's just a matter of time before you lose your mind  
Cause it gets hard enough to love her  
If she don't get her way baby says she's not gonna stay

You know she's every boy's dream  
With skin like peaches and cream  
She stops you cold with just a wink of an eye

And when she takes you in hand  
She says you're her only man  
You know you feel like such a lucky guy

But it gets hard enough to love her  
She won't take it slow cause she's got places to go  
Yeah it gets hard enough to love her  
You won't have a clue that she's found somebody new

Beware my friend cause you're gonna

find yourself on the raw end  
she don't care what you do  
because she has so many more fools like you

Well she's a sweetheart of a girl  
She puts your head in a whirl  
Just like a beauty in a magazine  
And when you're lying in bed  
Already feeling half dead  
She spins you round like on a record machine

But it gets hard enough to love her  
You better learn to dance cause it's your only chance  
Yeah it gets hard enough to love her  
It's just a matter of time before you lose your mind  
Yeah it gets hard enough to love her  
Oh don't tell her no cause she's got places to go  
Cause it gets hard enough to love her  
She's gonna give you the blues  
And put you out with yesterday's news  
Yes She will

### EYES OF THE WORLD

*words & music: Robert Allen*

---

Staring from the top of the edge of another night  
He could feel the eyes of the world taking his sight  
Standing with his heart in his hand  
He wished that he could understand  
How she had left his life

Goodnight my lady I can't face the fear  
Of knowing that I've lost that girl  
Goodbye my baby I can't hide in here  
These tears from the eyes of the world

Waiting for the hands of time to pull you apart  
Cause nothing's left to replace a love that's robbed from a heart  
Knowing that your hope is gone

And feeling like you can't let on  
The hurt that you must fight

Goodnight my lady I can't face the fear  
Of knowing that I've lost that girl  
Goodbye my baby I can't hide in here  
These tears from the eyes of the world

Well you think you've found that perfect love  
And it's safely in place  
But then the ground that you're standing on  
Disappears without a trace

Goodnight my lady I can't face the fear  
Of knowing that I've lost that girl  
Goodbye my baby I can't hide in here  
These tears from the eyes of the world

### THINK A LITTLE LOUDER

*words & music: Robert Allen & Eddie Walker*

---

Well my heart isn't bound by tradition  
But I don't know what to trust in my condition  
Cause there's so many strands to tie together  
But it always seems you like to have me near

Won't you think a little louder  
I'm ready to listen  
Cause you make me dream  
When I see that gleam in your eye  
Come on think a little louder  
I'm tired of wishing  
Well is love beneath you  
Cause I can't read you no more

Well just one look at you can make me dizzy  
And just pondering your thoughts can keep me busy  
The first words from your mouth could be I love you  
But the tone beneath could signal something else

Come on think a little louder  
And make a decision  
Well I've worked these feelings  
Round and round in my mind  
Baby think a little louder  
Reveal your position  
If you can't unearth it  
Then love's not worth it no more worth it no more

Think a little louder  
You don't have to try and sell me  
If this love's not real just tell me  
Baby I just wanna know

Baby think a little louder  
I'm ready to listen  
Cause I've worked these feelings  
Round and round in my mind  
Baby think a little louder  
And make a decision  
If this love's not worth it  
Then I can't take it no more

Baby think a little louder  
Think a little louder

### BELIEVE IN NOTHING

*words & music:*

*Jessie Hobbs, Robert Allen, Eric Hoagland, Tommy Mastro*

---

I believe in nothing and it's not so bad  
Cause nothing's gonna save me in the end

I used to search for something with passion in my hands  
The devastation made me who I am.

Cause I gave my heart  
I tried but you could not see  
Yes I gave my heart  
I tried but you could not see

Desire pulled you one way while envy lured you in  
And that deception cost us everything

Now I believe in nothing and it's not so bad  
Cause nothing's gonna save me in the end

Cause I gave my heart  
I tried but you could not see  
Yes I gave my heart  
I tried but you could not see

And I'd be first in line for nothing  
And you would still be lost

I believe in nothing and it's not so bad  
Cause nothing's gonna save me in the end

Cause I gave my heart  
I tried but you could not see  
Yes I gave my heart  
I tried but you could not see  
And I played my part  
I tried but you could not see  
Cause I gave my heart  
I tried but you could not see

I tried but you would not see  
I tried but you would not see

Cause I gave my heart  
To search for something

### THINK IT OVER

*words & music: Robert Allen*

---

You're feeling down now  
And you say you're getting older  
Don't be afraid it's time  
You faced what lies ahead

Sometimes you have to believe in your heart  
That the best things come out when  
You forget all your troubles  
And what might or could have been

So think it over baby let go  
Just think it over it's time that you know  
Just think it over baby  
And believe in yourself again

Another time another place  
Maybe start over  
You never know until  
You set your mind for change

Sometimes you have to believe in your heart  
That the best things come out when  
You forget all your troubles  
And what might or could have been

So think it over baby let go  
Just think it over it's time that you know  
Just think it over baby  
And believe in yourself again

Just when you think  
You've got it all worked out  
Someone disappoints you again

I know it's hard but find  
Some hope in your heart  
Cause every new start follows every end

You're feeling down now  
And you say you're getting older  
Don't be afraid it's time  
You faced what lies ahead

Sometimes you have to believe in your heart  
That the best things come out when  
You forget all your troubles

And what might or could have been

So think it over baby let go

Just think it over it's time that you know

Just think it over baby

And believe in yourself again

So think it over baby

And believe in yourself again

So think it over

Think it over now baby

### SHE SAID, SHE SAID

*words & music: John Lennon & Paul McCartney*

---

She said I know what it's like to be dead

I know what it is to be sad

And she's making me feel like

I've never been born

I said who put all those things in your head

Things that make me feel that I'm mad

And you're making me feel like

I've never been born

She said you don't understand what I said

I said no no no you're wrong

When I was a boy everything was right

Everything was right

I said even though you know what you know

I know that I'm ready to leave

cause you're making me feel like

I've never been born

She said you don't understand what I said

I said no no no you're wrong

When I was a boy everything was right

Everything was right

I said even though you know what you know

I know that I'm ready to leave

cause you're making me feel like

I've never been born

She said I know what it's like to be dead

I know what it is to be sad

And you're making me feel like

I've never been born

### MODERN WAYS

*words & music: Robert Allen*

---

Every now and then

I wish that I could find a way

To hide myself from people

Who just can't tell night from day

They're spammin' your computer

And they nag you on your cell phone

They hound you with their fears

And they won't leave you all alone

All they want is all your money and everything you own

You know I can't live in your world

Cause it's hard enough to live in mine

The choice is yours to make

With an option on the dotted line

And you can't say yes

And you know you can't say no

You're stuck out on the edge with no place left to go

You either come inside or you drop your pride nice and slow

Modern ways of livin'

Modern ways to help you lose your mind

Rockin' in the modern age

You know that it ain't a crime

And you can't say yes

And you know you can't say no  
You're stuck out on the edge with no place left to go  
You either come inside or you drop your pride nice and  
slow

Every now and then  
I wish that I could find a way  
To hide myself from people  
Who just can't tell night from day

They're spammin' your computer  
And they nag you on your cell phone  
They hound you with their fears  
And they won't leave you all alone  
All they want is all your money and everything you own  
All they want is all your money and everything you own  
All they want is all your money and everything you own
